Climate Change Econ 276 Assignment 1

Hello this is my token submission for assignment 1.
I have set up julia and downloaded the data here is a picture of the dataframe after the first cleaning step to focus on the time period we want.

```
451×54 DataFrame
 Row │ v YEARS/GAS >  TOTAL_INCLVOLCANIC_RF  VOLCANIC_ANNUAL_RF  SOLAR_RF    TOTAL_ANTHRO_RF  GHG_RF       K
     │ Int64          Float64                Float64             Float64     Float64          Float64      F
─────┼────────────────────────────────────────────────────────────────────────────────────────────────────
   1 │          1850               0.405396            0.192005  0.0468169          0.166575  0.203438
   2 │          1851               0.398625            0.193033  0.0350131          0.170579  0.207233
  ⋮  │      ⋮                   ⋮                   ⋮              ⋮               ⋮            ⋮
 451 │          2300              12.3353              0.0       0.103756          12.2316    12.4972
```
